WORK EXPERIENCE

Frontend Developer Kenfill Techno solution

08/2024 - Present

Liverpool - UK

project name: Flexrates (Mortgage banking)

Achievements/Tasks

- Converted design wireframes into responsive React/Next.js components.
- Built modules for rate creation, adjustments, and Excel import/export using Tailwind CSS.
- Collaborated with backend engineers to integrate AWS Lambda and S3 into the frontend application, ensuring seamless API connectivity and real-time data synchronization for an enhanced user experience.
- Developed a dynamic data grid with sorting, filtering, and inline editing capabilities while implementing real-time visual feedback using spinners and progress bars.

Software Engineer Expleo

10/2022 - 08/2024

bristol unitedkingdom

project name: LEGO insider club(ecommerce)

Achievements/Tasks

- Designed and implemented an Add-To-CART feature for an e-commerce website using ReactJS, enhancing the shopping experience.
- Modified existing RESTful web services to improve data handling and integration with new features.
- Developed features to optimize the web design for smartphones, ensuring a seamless user experience across devices.
- Built and maintained user-facing components and front-end libraries using ReactJS, creating reusable elements for consistent design and functionality.
- Troubleshoot and debugged application code to resolve issues and enhance overall performance and reliability.
- Wrote application-level code to add functionalities to add client-side validation using NextJS.
